

A Tale of Evolution The New EV Reality

[Read the comic](#)

Meet Adam
CIRCA 3500 BC

*This year his fellow
cavemen built a wheel*

*Adam built a vehicle out of
tree branches and stone
wheels*

*He uses it to explore new lands.
Find greener pastures. And fresh
hunting grounds*

*Yabba
Dabba
Doo!*

*This has been a great year and no less than a
turning point for the Entire humanity*

Meet Jack

*The great-great-great-great-great-
great-great-....grandson
of Adam*

Year 2022

CIRCA
3500
BC

He owns an electric car

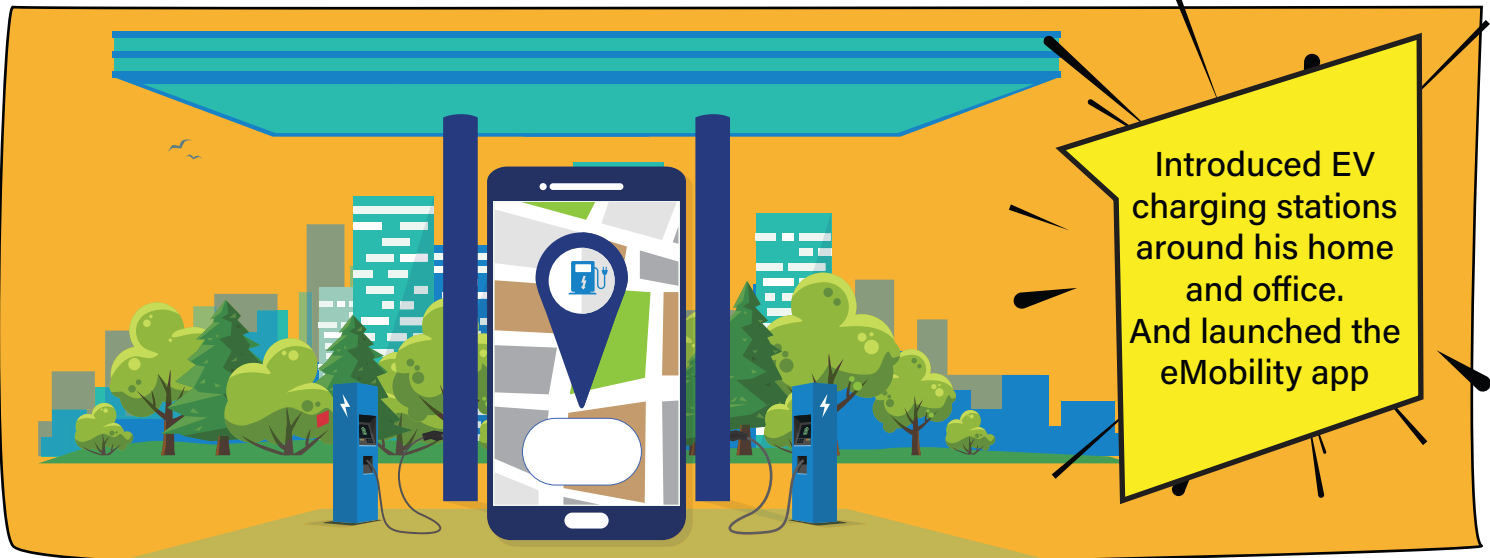

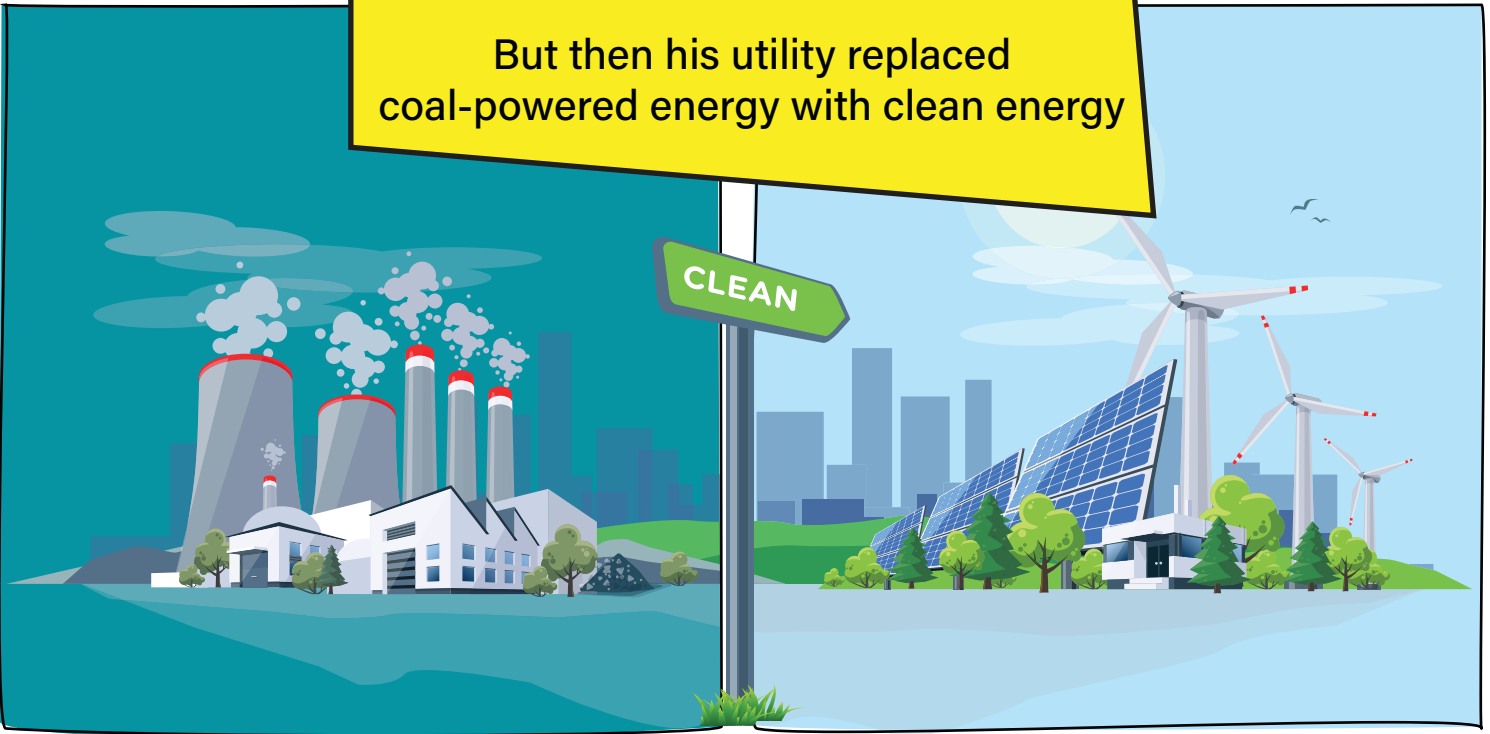

He borrows the innovative genes as his ancestors.
Here's how he is revolutionizing humanity, for the good

A few years ago, he used to drive a petrol-based car

But then his utility replaced coal-powered energy with clean energy

Introduced EV charging stations around his home and office. And launched the eMobility app

*Purposeful innovations have and will
always move humanity towards a
greater good*
